Young Woman Bearing Diary of Her Brother Disappears as Mysteriously as She Departed From Cambridge—Secret Inquest Ordered by Judge Almy.

By Boston American Special Wire.

CHICAGO, May 3.—Miss Bertha Muentner, sister of Erich Muentner, the missing Harvard instructor who is accused of having poisoned his wife at Cambridge, Mass., arrived in this city today on a Michigan Central train, and immediately disappeared.

It is believed here that she brought with her her brother's diary, which contains his life history for six years and which may throw light on his wife's mysterious death.

Before her sudden disappearance from Cambridge, where she employed a lawyer to look after her brother's interests, Miss Muentner said: "My brother was one of the best men in the world. No one who knows him can believe such lies. It is horrible for any one to suspect him of killing his wife."

Miss Muentner left Cambridge Tuesday afternoon and hurried on to this city. Arriving about six o'clock today she left the sleeping car, and is believed to have taken a seat in a chair car in the same train, thus avoiding a meeting with those who wished to question her on her arrival.

SLIPPED AWAY FROM CROWD.

The young woman did not leave the train at the Woodlawn station, where several persons were waiting for her. It is believed that she slipped away in the crowd when the train stopped at the city.

SECRET INQUEST IN MUENTER MYSTERY

The inquest into the strange death of Mrs. Erich Muentner, wife of the Harvard instructor who is sought by the police on charges of murder, which will begin in Cambridge tomorrow, will be secret.

This announcement was made today by Judge Charles Almy of the Cambridge District Court.

It is believed that the police of Cambridge are especially interested in the case, and that they will be able to recover his diary, which the police are seeking.

Will the diary reveal the fact that a married woman caused her death either by the hope of gaining scientific knowledge of the police, or by the purpose of releasing her from a life of confinement?
